

## PARLIAMENTARY BUREAU

### FUTURE BUSINESS PROGRAMME: POSSIBLE MOTIONS FOR MEMBERS' BUSINESS

1. Bureau members will be aware that under Rule 5.6.1(c) the Bureau has a duty to ensure that there is a period of time available for Members' Business at each meeting of the Parliament.
2. This paper is circulated with the Bureau papers each week and provides Bureau members with an updated list of motions lodged each week for Members Business debate. The paper will also provide Bureau members with a record of Members Business debates throughout the session, and the number and frequency of such debates that each party has had.
3. Bureau members may wish to note for information that the rota for Members' Business until Summer Recess is as follows—

<b>Week beginning</b>	<b>Tuesday</b>	<b>Wednesday</b>	<b>Thursday</b>
<i>24 April 2023</i>	SNP	SNP	GRN
<i>1 May 2023</i>	LD	CON	SNP
<i>8 May 2023</i>	SNP	SNP	CON
<i>15 May 2023</i>	LAB	SNP	SNP
<i>22 May 2023</i>	CON	SNP	LAB
<i>29 May 2023</i>	SNP	CON	SNP
<i>5 June 2023</i>	SNP	GRN	CON
<i>12 June 2023</i>	LAB	SNP	SNP
<i>19 June 2023</i>	CON	SNP	LAB
<i>26 June 2023</i>	SNP	CON	SNP
<i>Summer recess 2023</i>			

4. Motions submitted for Members' Business are shown below—

#### **S6M-08901: Clare Adamson: Drowning Prevention Week 2023 -**

That the Parliament marks Drowning Prevention Week (DPW) 2023, which runs from 18 to 25 June; notes that the campaign, initiated by the Royal Life Saving Society UK (RLSS UK), aims to reduce the number of drowning and near-drowning incidents that occur in the UK every year by promoting the skills and knowledge that people need to be safe and have fun in the water; believes that DPW, now in its 10th year, is as crucial as ever, as it promotes water safety education; understands that, on average, 50 people accidentally drown in Scotland each year, and a further 29 people take their own lives in and around the country's water ways; acknowledges that the DPW campaign encourages schools, clubs, leisure centres and communities to promote water safety education through events, lessons, games and activities, in a bid to make people more aware of the dangers of water; welcomes the provision of new educational resources from Water Safety Scotland, created by RoSPA, which include free water safety lessons for schools and practitioners and the first ever curriculum-aligned water safety resources; commends RLSS UK and partner agencies, such as Water Safety Scotland, for what it sees as their tireless

campaigning to promote water safety, and wishes everyone involved in Drowning Prevention Week 2023 the very best in their efforts.

**S6M-08765: Emma Harper: World Asthma Day, 2 May 2023 -**

That the Parliament notes World Asthma Day 2023, which took place on 2 May 2023; recognises that the Global Initiative for Asthma, supported by the World Health Organization, marked the day with the theme of Asthma Care for All; understands that around 360,000 people, including 72,000 children, have an asthma diagnosis in Scotland; believes that the Scottish Government's Respiratory Care Action Plan aims to improve prevention, diagnosis, treatment, care and self-management of asthma and lung conditions, such as chronic obstructive pulmonary disease (COPD) and bronchiectasis; welcomes the campaign, led by Asthma + Lung UK Scotland, to improve asthma care in Scotland; regrets reports that only 25.4% of people with asthma, surveyed by Asthma + Lung UK Scotland, said that they received all the elements of basic asthma care; understands that six in 10 people in Scotland, who were polled by Asthma + Lung UK Scotland, said that they are concerned about air quality around schools, which, it understands, can cause asthma in children and exacerbate existing conditions; welcomes reports of the creation of the International Coalition of Respiratory Nurses (ICRN), which brings together nurses from across the globe to advance the care and treatment of patients with respiratory conditions, including asthma, and notes the view that better asthma care at all levels of health care can lead to better outcomes and lives for people living with asthma.

**S6M-08756: Beatrice Wishart: The Future of Island Transport Infrastructure -**

That the Parliament acknowledges what it sees as the importance of connectivity in Scotland's rural and island areas; recognises Scotland's net zero targets, which were voted for by the Parliament; notes the reportedly high output of carbon emissions from ferries serving Scotland's islands; believes that reliable transport infrastructure is essential for local communities, providing social and cultural benefits, as well as underpinning local economies and tourism; notes the recommendation of the second Strategic Transport Projects Review (STPR2) to investigate potential fixed link connections, such as tunnels, along ferry routes on the Sound of Harris, the Sound of Barra, and between Mull and the Scottish mainland; understands that tunnels to connect communities on the Shetland Islands were deemed out of scope of STPR2 by Transport Scotland; acknowledges Shetland's grassroots tunnel action groups, made up of community members advocating the potential advantages of tunnels to connect the isles, and notes the support for opportunities to explore the benefits of short tunnels in Shetland.

**S6M-08744: David Torrance: Work Set to Commence in Fife on Green Hydrogen Gas Network -**

That the Parliament welcomes the upcoming launch of the Levenmouth H100 Fife hydrogen network; understands that the project will start in May 2023, last for 15 months, and will be carried out in five phases; further understands that, by using clean offshore wind power and a dedicated green hydrogen production facility, the new gas network will deliver clean heat to around 300 households; acknowledges that the H100 project is a world-first green hydrogen gas network in the Buckhaven and Denbeath areas of Levenmouth, Fife; believes that the H100 project is leading the way in decarbonising home heating, and will be the first 100% hydrogen-to-homes zero carbon network anywhere in the world, demonstrating what it sees as the potential for the whole British gas network to deliver hydrogen gas; notes that the H100 project will be undertaken by gas

distribution company, SGN, and is funded by the Scottish Government, Ofgem, SGN, and Northern Gas Networks, among others; commends SGN and its funders for the £32 million project and investing in Fife's green energy industry, and wishes the project all the very best in its implementation.

**S6M-08735: Fulton MacGregor: One Parent Families Scotland's End Young Parent Poverty Campaign** – That the Parliament recognises the commencement of One Parent Families Scotland's End Young Parent Poverty campaign, which began on 26 April 2023; notes with concern reports that people aged under 25 receive less than older Universal Credit claimants in the same circumstances; believes that such a policy disproportionately affects parents who are under 25, including in the Coatbridge and Chryston constituency; acknowledges reports that, in real terms, this means that couple parents under 25 lose out by £100 per month compared to over-25s, and single parents under 25 lose out by £65 per month compared with those over 25; notes the calls for the Scottish Government to support young families with a top-up to the Scottish Child Payment for parents under 25, who are in receipt of Universal Credit; further notes the calls for the UK Government to urgently reverse what it considers this discriminatory policy and pay under-25s the same rate of benefits as over-25s; understands that the campaign is supported by nearly 50 partner organisations, and notes the view that the realisation of the campaign's goals will help children at the highest risk of poverty, promote gender equality by addressing what it sees as the deep inequalities faced by young single parents who are disproportionately female, as well as supporting all young single parent families who represent the household type reportedly most likely to lose out from the move to Universal Credit, and help Keep The Promise to care experienced young people.

**S6M-08629: Stuart McMillan: Scotland's Liver Cancer Crisis - That the** Parliament understands that 90% of liver disease is preventable, but that rising alcohol misuse, obesity and viral hepatitis are reportedly contributing to a liver disease and liver cancer crisis in Scotland; notes reports that liver disease burden is highest in deprived areas, such as those within the Greenock and Inverclyde constituency, which, it understands, had the highest rate of alcohol-specific deaths in 2017-2021, the majority of which were caused by alcohol-related liver disease; highlights what it sees as the importance of prevention and earlier detection of liver cancer, as one of the less survivable cancers, which, it understands, has seen the highest increase in mortality rates of all cancer types in Scotland over the last decade, and commends the work of the British Liver Trust and other charities in promoting the use of intelligent liver function tests and non-invasive liver scans in primary and community care to accelerate earlier detection of liver disease and liver cancer in order to save lives and reduce long-term pressures on the NHS.

**S6M-08593: Katy Clark: Women Prisoners** - That the Parliament notes reports that the women's prison, HMP Cornton Vale, is set to close and be replaced by HMP & YOI Stirling on the same site by the summer of 2023; further notes, with concern, reports that Scotland has had one of the largest female prison populations in northern Europe since 2010; understands that nearly 40% of women charged are not charged for a violent offence, with 63% of women in the sentenced population indexed under Group 1 (Violence) in the recorded crime statistics; notes the findings of the International Review of Custodial Models for Women: Key Messages for Scotland by the Scottish Government social research department in 2015, which concluded that "countries with lower rates of female prison populations tend to have

different sentencing practices, including a greater use of alternatives to custody and open prisons than is currently available in Scotland”; further notes the view that Scotland’s remand rates for women are too high, including in the West Scotland region; notes that the Scottish Prison Service confirmed in January 2023 that approximately 36% of women prisoners are on remand, higher than the percentage for prisoners who are men; further notes the view that the vulnerable nature of many women prisoners, offending patterns among women and the reported high percentage of women prisoners who are mothers and high percentage of women who have suffered brain injuries as a result of repeated domestic abuse, demonstrate that fewer women should be remanded into custody, and notes calls for the Scottish Government to reverse the real terms cuts to the justice budget, to fund and develop strategies to reduce the number of women on remand, and to consult with women’s groups to develop sustainable alternatives to custody that reflect the specific circumstances of women.

**S6M-08561: David Torrance: Burntisland Marine and Environmental Services Company Pledges £100,000 Lifeline to Kirkcaldy Foodbank** - That the Parliament commends Briggs Marine, in Burntisland, which, it understands, has pledged to donate £100,000 to Kirkcaldy Foodbank over the next four years; understands that the cash boost will help local families with the rising cost of living; further understands that Briggs Marine will donate £2,000 per month over four years, with an additional pre-Christmas payment ahead of the festive period, making a total commitment of £100,000 to help safeguard what it sees as this essential local service; commends the company for what it sees as its continued commitment to help charitable causes across the Kirkcaldy constituency, and wishes it all the best for the future.

**S6M-08505: Fulton MacGregor: The Role of Swimming Pools** - That the Parliament considers that swimming pools play an important role in Scottish society; believes that they enable the teaching of what it sees as a valuable life skill, the ability to swim, to people of all ages, in particular children; understands that swimming has been proven to have physical and mental health benefits; believes that such health benefits can often act as preventative health measures, which can reduce the strain on the NHS; notes that swimming pools often also act as community hubs, which, it considers, can be vital social assets for villages, towns and cities; understands that in non-coastal constituencies, such as Coatbridge and Chryston, swimming pools may be the only facility available where people can learn how to swim; notes the view that it is of critical importance that funding is provided in order to keep swimming pools open across the country, and further notes the calls for the Scottish Government to provide continued support to ensure that everyone can swim.

**S6M-08481: Clare Adamson: Complex Regional Pain Syndrome Awareness Month** - That the Parliament notes what it sees as the importance of Complex Regional Pain Syndrome (CRPS) Awareness Month; understands that CRPS is a debilitating chronic disorder, mostly affecting the limbs, which is characterised by severe pain, pathological changes of bones, joints and skin, swelling, temperature and colour changes and motor dysfunction, which can cause a person to experience persistent, severe and debilitating pain; further understands that the condition may develop after an injury, surgery, stroke or heart attack, and that the pain can be out of proportion with the severity of the initial injury; notes that CRPS Awareness Month

is held every November to raise awareness of the condition, and, as part of the initiative, that "Colour the World Orange Day" sees businesses, town halls and landmarks change their lights to orange in support of people living with CRPS; commends the volunteers and organisers at CRPS UK and Burning Nights CRPS Support for their efforts to raise awareness of what it sees as this poorly-understood condition; acknowledges that CRPS UK and Burning Nights are registered charities, with the shared goals of raising awareness of CRPS symptoms, providing invaluable support to people with the condition and advocating for more research development into it, and wishes all the organisers, volunteers, and the wider CRPS community, including those in the Motherwell and Wishaw constituency, every success in their efforts to increase public awareness of this debilitating condition and to support people affected by CRPS.

**S6M-08397: Rachael Hamilton: Scottish Environmental Horticulture Growth Strategy** - That the Parliament welcomes the launch of the Horticultural Trades Association's *Scottish Environmental Horticulture Growth Strategy*; understands that the strategy aims to support the growth of a horticulture and landscaping industry that contributes around £2.8 billion towards the Scottish economy and over 64,000 jobs, including in the Scottish Borders; recognises the role that gardening and horticulture can play in contributing to Scotland's net zero targets, and notes that the strategy was presented during a recent meeting in the Scottish Parliament of the Cross-Party Group on Gardening and Horticulture.

**S6M-08296: Brian Whittle: DEBRA, Living with Butterfly Skin** - That the Parliament recognises the work of the national charity, DEBRA, and its continuing support for people with, or who are directly affected by, epidermolysis bullosa (EB), also known as "Butterfly Skin", including people affected in the South Scotland region; notes that DEBRA defines EB as a group of incredibly painful genetic skin conditions that cause the skin to blister and tear at the slightest touch; understands that people with EB have skin as fragile as a butterfly's wing, which is why it is known by that name; further understands that EB is the result of a faulty gene, which is passed through families and means that the skin cannot bind together; notes that this blistering and tearing not only happens externally, but can also affect internal organs, including the throat, and, in the worst cases, can be fatal; understands that there are currently around 5,000 people diagnosed with EB in the UK; congratulates DEBRA on its appeal, A Life Without Pain, for raising £65,000 at a charity dinner and sports quiz in Glasgow on 19 March 2023, for which many Scottish sporting celebrities gave up their time to provide their support; understands that DEBRA does not receive any statutory funding and relies on the income generated by its charity shops and fundraising activities in order to provide care and support for people with EB, as well as to fund pioneering research to find treatments and, ultimately, a cure for EB, and wishes DEBRA well with its work to raise awareness of this incredibly painful condition, and its drive to find better treatments and a cure.

**S6M-08245: Rachael Hamilton: Supporting Mental Health in Rural Communities** - That the Parliament recognises what it sees as the unique challenges being faced by farmers and the wider agricultural industry as a result of vast input cost inflation caused by Russia's invasion of Ukraine, among other factors; commends farmers and crofters for the role that it considers they play at the heart of rural communities, producing high-quality sustainable food, supporting thousands of jobs, helping to

tackle climate change and enhancing biodiversity, despite the pressures that they face; understands that these pressures contribute to concerns around the mental health of farmers and crofters in Scotland, including in the Scottish Borders; notes the work of the National Farmers' Union of Scotland in working with its members to protect the physical and mental wellbeing of all those working and living in farming communities, and highlighting the issue of mental health in farming, agriculture and countryside management more widely; recognises the work of the Countryside Alliance, the Mental Health Foundation Scotland, Scottish Land and Estates, the National Rural Mental Health Forum and the Poverty Alliance, among others, in also highlighting such issues and working towards finding solutions, and notes the calls encouraging those who are struggling with their mental health to access help and support from either their friends or family, or the many services available, including RSABI.

**Jeremy Balfour: S6M-08219: Ensuring that Lothian Late-diagnosed Deaf Children Get the Support That They Need** - That the Parliament notes the belief that every child affected by the failings identified in the 2021 audit of NHS Lothian's paediatric audiology service, carried out by the British Academy of Audiology (BAA), must get the support that they need to thrive and to overcome any additional barriers that they face due to the failings identified in the report; understands that the audit did not include children seen later than 2018, which, it considers, means that there were further years until any failings were addressed by an action plan, and that there may be many more children who were not diagnosed in a timely manner; recognises that the key stages for fluent first language development are birth to three years old; understands that the BAA report found that the average age of identification of deafness was 4.5 years for children in the NHS Lothian area, which, it understands, is far longer than comparable figures in the rest of the UK; considers that the failings identified in NHS Lothian's paediatric audiology service will mean that many of the affected children were diagnosed after this critical period and are therefore likely to experience a significant adverse impact on their language and communications development, potentially leaving such children with more complex needs that may need to be addressed through co-ordinated support from health, education, social work and other agencies; understands that the families of affected children have come together to form Families Failed by Lothian Audiology Action Group (FLAAG); further understands that the parents involved in FLAAG have identified a number of areas where their children are not getting the support that they need; understands that the families involved in FLAAG report that they have experienced a lack of access to BSL tutors, speech and language therapy and appropriately qualified professionals to support their deaf children and help remediate any damage caused by the failures of the audiology service, and notes the calls on all public and voluntary sector bodies that are supporting the late-diagnosed deaf children in the Lothians and beyond to work together to ensure that they always get the support that they need.

**S6M-08210: Rhoda Grant: Scottish Youth Parliament Publishes its Young People's Right to Food Report** - That the Parliament welcomes the publication of the Young People's Right to Food report by the Scottish Youth Parliament (SYP); understands that almost 850 responses were received to gather young people's experiences of accessing food; praises the SYP's work in conducting this extensive research as part of its campaign to find out about young people's experiences of accessing food, and using this to produce five clear recommendations to be put to

decision-makers on potential changes that could improve young people's access to food; understands that the report highlights the many difficulties that families are facing in Scotland, and that young people want to be more included in the decision-making process regarding issues that affect them, particularly in relation to school meal provision and choices; further understands that only two fifths of respondents knew about the help and support that they could receive to access food in their local communities; notes the view that more work can and must be done to improve this; further notes that what it sees as this notable report harnesses the voices of young people in Scotland, including those in the Highlands and Islands region, in calling for their rights to be recognised by this Parliament, and notes the calls for the right to food to be upheld in Scots law and to create a fair, healthy and sustainable food system that is accessible to everyone.

**Murdo Fraser: S6M-08199: Dewars Centre in Perth** - That the Parliament notes the concerns raised by Scottish Curling that the potential closure of the Dewars Centre, in Perth, would be the death knell of a legacy of curling in Perthshire dating back decades; notes the belief that, if this proposal goes ahead, it would mean that the town and county with which curling is most closely associated has made a choice to de-prioritise the success of legends such as Rhona Howie, Eve Muirhead, David Murdoch and numerous others, all of whom have a strong connection between Perth and the Dewars Centre and their Olympic and World Championships successes; further notes that the Dewars Centre has a history of supporting grassroots curling, and the potential to enable critical growth and to play a central role in tackling isolation, reducing barriers to inequality, and ensuring that inclusion and a sense of community are at the heart of sport in Perth, and notes the calls for Live Active Leisure and Perth and Kinross Council to reach a decision that would enable the Dewars Centre to be retained.

**S6M-07928: Jackson Carlaw: East Renfrewshire Good Causes** - That the Parliament acknowledges what it sees as the incredible and transformative work of charities in the Eastwood constituency and across Scotland; welcomes the ongoing contribution of East Renfrewshire Good Causes in providing what it considers outstanding support to vulnerable members of local communities; understands that, in the period since the charity was established and first started to offer much-needed support in August 2007 and up to September 2022, East Renfrewshire Good Causes has provided £1.6 million in goods and services and helped 5,400 individuals; acknowledges that examples of support that the charity has funded, either in full or in part, include wet floor shower adaptations for disabled pensioners, help with travel costs for cancer patients on low incomes to attend hospital for treatment, and play spaces and equipment for young people with additional support needs; considers that the set-up of the charity means that it can respond very quickly to emerging circumstances and is able to undertake essential tasks in a short timescale, such as assisting with practical home support improvements needed to allow older people to be discharged from hospital to free up beds for incoming patients; recognises that all referrals to the charity are made by frontline professionals, including teachers, housing officials and health and social care staff, from both the public and third sector; understands that the operations of East Renfrewshire Good Causes have expanded over the years and that the charity is also now active in Glasgow, South Lanarkshire, Renfrewshire and East Ayrshire; congratulates the founder and project coordinator of East Renfrewshire Good Causes, Russell MacMillan, for what it sees as the remarkable and selfless efforts that he has made for more than 15 years in

driving the Eastwood-based charity forward and ensuring that vital support has been provided to people in need, and considers that East Renfrewshire Good Causes has demonstrated a strong track record of delivery and established an operating model that has the potential to be replicated in all local authority areas across Scotland.

**S6M-06729: Colin Smyth: Justice for Fornethy House Survivors** - That the Parliament recognises what it considers as the inspirational women who have bravely come forward to highlight the plight of the reported hundreds of survivors of physical, mental and sexual abuse at Fornethy House Residential School, in Angus, when they attended to convalesce or for short breaks between 1960 and the 1990s; notes reports that over 200 women have revealed the appalling abuse that they suffered at Fornethy House when they were young girls; commends these women for what it sees as their determined and admirable campaign for justice; recognises the reported challenges that survivors of Fornethy House have experienced in qualifying for Scotland's Redress Scheme due to the eligibility criteria excluding those abused in short-term respite care; notes the reported difficulties that the survivors have had in obtaining personal records that were held by the owners of Fornethy House at the time, which were Glasgow Corporation and Strathclyde Regional Council; further notes the ongoing Police Scotland investigation, but regrets that, to date, none of the alleged perpetrators of the abuse have been brought to justice, and notes the view that these women deserve both justice and recognition for the appalling abuse that they suffered at Fornethy House Residential School.

#### Record of Members' Business taken by the Parliament from 8 June 2021

Date	MSP	Party	Subject
8 June 2021	Jim Fairlie	SNP	Impact on Scottish Agriculture of Tariff-free Trade Deals
9 June 2021	Neil Gray	SNP	Social Justice and Fairness Commission Report
